## NEW Online Exhibition

### *American Women Artists Since the Vote*

Curated by Alisa McCusker

This online exhibition celebrates the centenary of the Nineteenth Amendment and the achievements of American women artists from every decade since 1920. The selection, all drawn from the Museum's collection, includes a variety of media and techniques and represents artists that have found regional, national, and international success. Each of their visions matter – just like every vote counts.

The Museum is **FREE** and ADA accessible
